

Delaware Emergency Management Agency

Course Description

COURSE CODE/TITLE	AWR-347	Climate Adaptation Planning for Emergency Management	
COURSE LOCATION	Clayton Fire Hall 300 East Street Clayton, DE 19938		
COURSE DATES	May 14, 2020	COURSE TIME	0800-1600
COURSE DESCRIPTION	This course helps emergency services and the community better prepare for the climate adaptations necessary and systems vulnerabilities that may occur from hazard impacts. Participants will be able to describe the principles of climate adaptation planning for emergency management and existing first response processes and will be able to discuss the impact of weather on critical infrastructure and key resources while explaining the concurrent effects of climate change on those impacts. Participants will also gain an understanding of how to identify and apply adaptation strategies to address local emergency services sector vulnerabilities. The course is also designed to provide opportunities for participants to learn about various resources that can be used to implement local climate adaptation strategies in their communities.		
COURSE OBJECTIVES	<ul style="list-style-type: none">• Describe the relationship between weather hazards and global climate change• Identify the potential impacts of climate change on critical infrastructure and key assets• Explain the process of developing adaptation strategies for the impacts of climate change
